# GPML Digital Platform
Inform. Connect. Inspire.

WHO WE ARE / OUR VISION

The Global Partnership on Marine Litter (GPML) Digital Platform was set up in 2020 and seeks to connect and inform all actors working to address marine litter and plastic pollution.

This multi-stakeholder, mostly open-source platform compiles and crowdsources different resources, integrates data and connects stakeholders to guide action around this pressing global issue.

WHAT WE DO

The GPML Digital Platform offers a single point of access for current, accurate data and information on plastic pollution, marine litter, and related topics. It provides a wide range of materials to support stakeholders' needs, ranging from scientific research to technological innovation and public outreach, to inform decision-making, educate and raise awareness, facilitate target setting, and advance cooperation.

CONNECT STAKEHOLDERS

Stakeholders' engagement, interaction and collaboration

KNOWLEDGE EXCHANGE

Distributed, open data capture Integrated and smart search of content Personalization and learning

Validated and curated publishing

DATA HUB

Integrated geo-spatial, data mapping, layering and analysis features

JOIN US!

Are you working to tackle marine litter and plastic pollution? Entities can join the GPML, while both entities and individuals join the Digital Platform and benefit from the below:

- Access a data hub to guide efforts towards SDGs and more
- Utilise an array of resources at your fingertips
- Network with other stakeholders around the world
